

PHILA. IS SCORED FOR 'INTOLERANCE'

Colonel Roth Criticizes Schools for Not Inculcating Better Spirit

CALLS FAULT NATION-WIDE

An intolerance for the opinions of others and a lack of fitness of character were scored today as the faults of the education system in this country, and especially in this city, by Colonel George Roth, former Chief

of Staff of the Sixty-third Artillery Brigade, A.E.F., and Philadelphia representative of the Harvard University Commission on Economic Research. He spoke at a luncheon of the Rotary Club at the Bellevue-Stratford.

"There are two prime things," said Colonel Roth, "that the schools of the country, and particularly of this city, are failing to do. One is the failure, I believe, to help our young men and women with the ability to adapt themselves to the conditions of practical life and the other is to have a decent tolerance for the opinions of others."

"We are turning out of our schools all over the country a set of young men and women whose most shining characteristic is an intolerance for the feelings and opinions of others themselves. This is particularly true in this city, where we are turning out a

most intolerant lot. They have the 'wise-guy' attitude and think that their way is the best without stopping to investigate what others may think."

"I found this especially striking on the other side during the war. Brash young Americans rudely brushed aside gentle Frenchmen and did not gain an enviable reputation thereby."

"We are developing the same characteristics we hated in Germans. That is one reason why we are not getting foreign trade. The American drum-

mer has made himself obnoxious with his noisy egotism and is persona non grata with most foreigners."

"We are developing the same charac-

teristics we hated in Germans.
